

**FIELD OF USE :**

Personnel protective equipment against electrical risks.

CHARACTERISTICS :

Manufactured of elastomeric compound with slip resistant surface.
High quality dielectrical material.
Available in rolls.

| REFERENCE | Thickness in mm | Length x Width in mm |
|--------------|--------------------|-------------------------|
| MP-60/10-5 | 10 | 5 000 x 600 |
| MP-60/10-10 | 10 | 10 000 x 600 |
| MP-100/10-5 | 10 | 5 000 x 1 000 |
| MP-100/10-10 | 10 | 10 000 x 1 000 |

WARNING :

For an high voltage insulation, additional protections are requested.
The insulation in the mat widthwise is not ensured due to the risk of flash-over, which will happen before the perforation of the mat.
In a-600 mm width, in real situation with the feet at the mat centre, the flash-over risks can appear from 38KV phase to ground potential, or a 65 KV network.

Please, contact us for any specific application.

10 mm INSULATING MAT

MP-60/10.., MP-100/10..
