The **PPA Coated BAND-FAST™** Clamp with captive clip from **BAND-IT**[®]

PRODUCT BENEFITS

- Low profile finish
- 316 grade stainless (0.4mm band thickness)
- PPA 571 coating (0.4mm coating thickness)
- Zero Halogen, low smoke & fume
- DNV and GL Type Approved Materials
- Logistical and handling benefits (easier to move around site in bulk)
- Standard width 5/8" (15.88mm) - other widths available
- Standard colour black (other colours available upon request)
- Captive sealing clip
- Fully rounded edges
- Round profile on end of band
- Improved health & safety during installation
- Significantly lower cost compared to cleats
- Significant weight reduction
- Reduced inventory – one size fits all
- No accessories required (fixing, liners, packers, studding, etc)
- Accommodates variations in cable diameter
- Reduced environmental impact during manufacture / transportation / decommissioning
- 50% labour saving versus cleats
- Independently tested for shock and short circuit

PPA Coated BAND-FAST™ Clamps – **CAN YOU AFFORD TO IGNORE THE ADVANTAGES?**

■ C075 Bantam Tool

Case Study

Aker H-6e Drilling Rigs

The product exceeded Aker Solutions' expectations and over 40,000 clamps were used throughout the project.

PROJECT: Aker H-6e Drilling Rigs

PRODUCT: PPA Coated BAND-FAST™ Clamps

APPLICATION: Alternative to Cable Cleats

REASON: Lower cost, low profile, reduce weight, faster installation, Health & Safety advantages.

Testing was undertaken at SINTEF (Trondheim University – Norway) in conjunction with Aker Solutions to evaluate suitability of 5/8" wide PPA Coated BAND-FAST™ Clamps as an alternative to Cable Cleats under short circuit conditions. The product exceeded Aker Solutions' expectations and was used throughout the project.

AKER SOLUTIONS LATER REPORTED:

- Over 50% combined savings in material and labour costs compared to cleats
- Logistical advantages due to lower weight of product and ease of handling
- Reduced inventory due to 'one size fits all'
- BAND-FAST™ Clamps easily accommodated any size variation due to cable diameter tolerances
- Reduced Health & Safety risks during installation (heavy cleats / bolts, etc / dropped from height / carrying heavy cleats & accessories to work area)
- Aker further reduced drop risk by securing the tool to the operator via a wrist strap
- Lower profile of finished cable runs leading to space savings
- Reduced weight of materials on rig leads to increased production capability
- Reduced risk of damage to cable insulation during cable pulling

PPA Coated BAND-FAST™ Clamps

Part Number	Width	Length	Max bundle dia	Single / Double wrap	Pack Q'ty piece	Weight per piece (Kg)
