

Installation Instructions Elite Cable Clamp

Elite Cable Clamp

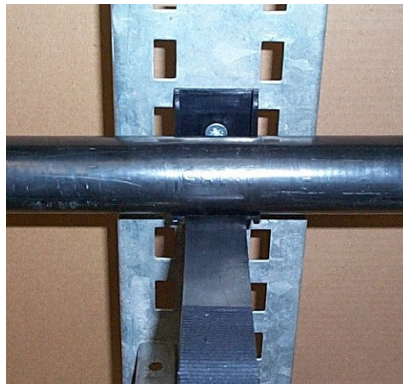

Elite Cable Clamp

- 1) Screw fix the cable clamp to the support structure, wall or skirting.

- 2) Install the cable.

- 3) Locate the retaining strap through the aperture at the rear of the cable support, hand tighten.

- 4) Pass the end of the retaining strap through the two legs below the cable support to lock the strap. To release the strap use a screw driver to prise open the legs.
