Static earth lead and plier clamp

Description	Cable length (max)	Weight each	Part No.
Static earth lead and plier clamp	3 metres	0.56kg	**SK010**

Clamp certification ⟨Ex⟩ II 1GD T6 ⟨FM⟩ Approved

A multicored high-tensile steel cable with a medium duty hard anodized diecast aluminium clamp. The Cen-Stat™ cable has an orange Hytrel coating and is pre-terminated with an M10 compression ring terminal. The clamp has stainless steel contact teeth.

Static earth lead and heavy duty clamp

Description	Cable length (max)	Weight each	Part No.
Static earth lead and heavy duty clamp	5 metres	1.09kg	**SK020**

Clamp certification ⟨Ex⟩ II 1GD T6

A multicored high-tensile steel cable with a heavy duty passivated carbon steel clamp. The Cen-Stat™ cable has an orange Hytrel coating and is pre-terminated with an M10 compression ring terminal. The clamp has twin tungsten carbide contact teeth.

Static discharge reel and plier clamp

Description	Cable length (max)	Weight each	Part No.
Static discharge reel and plier clamp	6.1 metres	4kg	**SK030**

Clamp certification ⟨Ex⟩ II 1GD T6. Reel certification ⟨Ex⟩ II 2GD T6

A multicored galvanised steel cable with a medium duty hard anodized diecast aluminium clamp. The cable is housed in a self-retracting cable drum with an instant lock mechanism. The clamp has stainless steel contact teeth.

Static discharge reel and heavy duty clamp

Description	Cable length (max)	Weight each	Part No.
Static discharge reel and heavy duty clamp	15.2 metres	5.9kg	**SK040**

Clamp certification ⟨Ex⟩ II 1GD T6. Reel certification ⟨Ex⟩ II 2GD T6

A multicored galvanised steel cable with a heavy duty passivated carbon steel clamp. The cable is housed in a self-retracting cable drum with an instant lock mechanism. The clamp has twin tungsten carbide contact teeth.
