London Underground Station Upgrade - 25A St. St. Isolators

20A Switch Disconnectors

Stainless Steel Enclosures - Non Glare Finish

The stainless steel enclosed isolators provide the security of knowing that environmental conditions will not effect the performance of the device for very extended periods.

Used throughout the food and pharmaceutical industries for its resistance to caustic cleaning agents, the stainless steel enclosure will also protect the interior against the elements in the most exposed of situations.

Features:-

- Ratings to BS EN 60947-3
Ith_e 20A, AC23A : 9.5kW at 415V.
- Lid mounting switch interiors.
- Standard items available in 2, 3, 4 and 6 poles.
3 and 6 pole options with 2 early break (E/B) auxiliaries.
- Optional neutral links form part of the switch interior.
- Plain hole cable entries (rear entry).
- Enclosure material - 18 gauge stainless steel 304
- Sealing to IP65.
- Finish:- Natural - Brushed (Non Glare)
- Socket head lid fixings.
- Padlocking cast lever.
- Positive break contacts.
- A maximum of 8 contacts available in the 20A size.
- Earthing points on both lid and enclosure base plus external M6 earth terminal.
- Padlocking in both 'On' & 'Off' positions
- Labels - Engraved traffolyte labels in various colours can be mounted on the enclosure lid, or supplied loose for mounting adjacent to the isolator.
- Second product label supplied loose for fitting by contractor where original label may be obscured.

Ordering Information:-

Configuration	Catalogue Number
2 Pole	DS252LUL10
3 Pole	DS253LUL10
3 Pole + 2 E/B Aux.	DS253EBLUL10
4 Pole	DS254LUL10
6 Pole	DS256LUL10
6 Pole + 2 E/B Aux.	DS256EBLUL10

To order a neutral link please include in ref as follows:-
Example 3 pole + Neutral Link
DS253NLLUL10

Spares

To order spare switch interiors, add suffix
/INT to the part number as follows:-
Example 3 pole + Neutral Link
DS253NLLUL10/INT

Dimensions:-

Internal Fixings - M6 on 85 x 85crs
Termination - M4
Maximum Cable Size - 2.5 to 6.0 mm²
Weight - Approx. 1.4 kg
