

## PORTABLE STATIC BONDING AND GROUNDING KIT

Accidents such as fuel tanker rollovers need to be properly grounded in order to allow for the removal of the flammable chemical from one tanker to another. This portable static bonding and grounding kit provides hazmat teams with a portable, easy to set up kit containing all the necessary items to eliminate the static build-up from an accident scene in a transportable, rugged container.

### LE-ERK1 contains:

- + Copper mobile ground stake
- + Sectional hammer driver for easy insertion and removal of ground rods
- + 2 grounding assemblies with 20' of 3/16" orange PVC coated coiled cable, aluminum ground clamp and a copper lug
- + Hard plastic water-tight case with foam
