## BODTECT

Overhead line shrouding manufactured from yellow U.V. resistant material to EA43-103 standard and suitable for up to 1000 volts protection. Bodtect overhead line shrouding has been designed for ease of installation on overhead lines whilst offering complete protection. It is supplied as standard in 3 metre lengths and standard sizes 22mm 32mm and 45mm internal diameter. Other sizes available upon request.

## CLASS B Protection

For use by regional electricity companies personnel when providing protection for third parties working in proximity to live low voltage conductors.

**BODCONNECT** snap fit connection piece, available for Bodtect 22/32/45.
