**TO EXCEED OUR CLIENT'S
EXPECTATIONS:
THIS IS OUR MISSION**

Pezzol safety shoe company is strongly committed to provide its customers with the most technologically advanced safety footwear and to exceed the tough safety features required by each Government Standards.

Our Research & Development has pioneered the First Total Customized Safety Shoe Program where Style and Comfort are ergonomically incorporated into the highest professional grade product that provides unparalleled performance under the most demanding conditions anywhere in the world.

PEZZOL'S WORLD

The 2009 will be the 50th Year Anniversary of Pezzol shoe company.

For half a century the Piazzolla's Family has been run an industrial group that drawing from the athletic shoe heritage, has become one of the world's manufacturer leading brand of Premium Top Quality safety footwear.

Every single Pezzol branded safety shoe is the outstanding combination of the Italian Style and the Ultimate Footwear Technology with the very best know-how of Italian craftsmen that still make every single upper as handstitched.

All the safety shoes included in our Safety Shoe Program are made with the most advanced Direct Injection Process System that provides our Worldwide Clients the highest performances in terms of Toughness, Durability, Lightness, Flexibility and Waterproofing.

This makes exclusively Pezzol the Unique Italian safety boot!

PEZZOL: THE UNIQUE ITALIAN SAFETY BOOT: JUST RIGHT!

7

In the Oil & Gas Industry everyone knows that time is money.

Pezzol knows what to do to improve consistently the rate of the professional workers's efficiency.

Every day they request outstanding performances from their safety shoes just like athletes during the Olympic Games!

TECNOLOGY AND INNOVATION IN A MADE IN ITALY SAFETY SHOE

Rugged Quality Innovation, Comfort and Safety built into every Pezzol's boot constructed according to the most advanced direct injection waterproofing technologies.

Petrol and oil Industry specifically requires Electrically conductive or antistatic rubber and polyurethane outsole compound. We do care about this!

Our shoes are handmade manufactured by using Idrotech Italian Leather, a special tanning Pezzol's patented treatment that provides our shoes the highest levels of absorption/permeability and waterproof features. Leather and seams are then specially treated to make them water resistant.

EUROPEAN STANDARD CE EN ISO 20345 : 2004

SAFETY CATEGORY	REQUIREMENTS
SB	BASIC TOECAP impact 200 JOULE compression 1500 NEWTON Energy Absorption in the heel region
S1	SB + Antistatic Features

EH Electric Hazard	14.000 Volt at 60HZ for 1 minute ≤ 3 mA

PEZZOL TOP GUN 4D[®]

Technology and high-performance for the Best Comfort

The TOP GUN shoes have a sportive look and hi-tech features. Light and comfortable, provided with the KNX VACUUM SYSTEM for the best anti-slip resistance performance.

10

SBX[®]

Direct injected TPU ankle stabilizer: to prevent ankle torsion and give better abrasion resistance.

TOE CAP **KZOO[®] KOMPO**

Patented design of king size multipolymer composite technology. This protective shell lighter 50% compared to the common steel toe cap is made of non-conductive materials which does not transmit heat or cold or activate metal detectors. It is non-magnetic and static free. Our unique design dissipates impact and exceeds European Standards CE EN ISO 20345 and ASTM F2413-05 I/75, C/75 impact and compression specifications.

METAL ROUND EYELETS,

absence of sparks or pointee elements.

MAXIMUM ANTI-SLIP RESISTANCE • EXCELLENT PERFORMANCE • MAXIMUM COMFORT

KNX® 4-DENSITY
TPU OUTSOLE

Vacuum system®

4DENSITY PU/TPU WATERPROOF DIRECT INJECTION & KNX VACUUM PATENT PENDING TECHNOLOGY FOR THE BEST WATERPROOFING AND OIL RESISTANCE FEATURES AND OUTSTANDING SLIP RESISTANT PERFORMANCES.

- 1 **KNX VACUUM SYSTEM**® for better anti-slip resistance.
- 2 **SOFT PU INSOLE** lightness, flexibility, cushion effect.
- 3 **MATRIX SYSTEM**® anti-torsion system combined with a shock-absorbing section.
- 4 **PU REINFORCED OVERCAP** for a better abrasion resistance.

KNX 4 DENSITY OUTSOLE IS RECOMMENDED FOR DILUTE MINERAL ACIDS, ORGANIC SOLVENTS AND OILS/ LUBRIFICANTS.

PEZZOL VINTAGE[®]: ITALIAN RUGGED STYLE

Strong against the adversities

Conceived to face the most difficult environments and the worst climatic conditions, RUBBER VINTAGE[®] safety shoes are particularly resistant and durable, even if they are extremely light. The PU/rubber outsole makes these shoes resistant to the hydrocarbons and to hot contact up to 300° C.

20

KING SIZE STEEL TOE CAP

REFLECTING COMPONENTS

High visibility in nightwork conditions.

EXTREME STRENGTH • EXTREME LIGHTNESS

COMPOUND® OUTSOLE

TRIPLE DENSITY RUBBER WITH A SPECIAL NITRILE MIXTURE. 3PLEGUM®: HIGH PERFORMANCES IN TERMS OF HEAT AND SLIP RESISTANCE, ALSO IN THE MOST CRITICAL SITUATIONS.

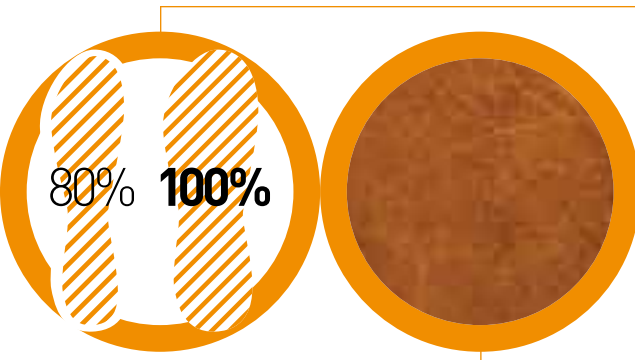

- 1 RUBBER OUTSOLE resistant to hot contact up to 300° C.
- 2 SOFT PU INSOLE lightness, flexibility, cushion effect.
- 3 HIGH DENSITY PU IN THE FLEXION POINTS it allows a long lasting performance.
- 4 COMPLEX® ANTI-SHOCK SYSTEM a special shock-off inlay that improves energy absorption in the heel region.

RUBBER VINTAGE OUTSOLE IS RECOMMENDED FOR: ALKALIS, DILUTE MINERAL ACIDS, ORGANIC SOLVENTS AND OILS/ LUBRICANTS.

PEZZOL ERGONOMIC

Extreme Comfort - BIO OBLIQUE TOE

Pezzol Ergonomic collection is engineered to meet the hardest needs in terms of comfort and durability also in extreme environment conditions. Our shoe engineers are proud to introduce a brand new bioergonomic last with oblique steel toe cap.

All these shoes are supplied with Comfort 12 multilayer composite open cell foam transpirant footbed that reduces sensibly the daily stress on the back.

The Pezzol Ergonomic Polyurethane-Rubber Waterproof Direct Mould Injection provides the highest resistance to heat, cold and oil exposures.

30

COMFORT 12 FOOTBED FOR WORK PROFESSIONALS

Comfort12 is a multilayer anatomical composite footbed. Three different layers provide the highest level of comfort. The back part produced in open cell polyurethane foam provides the proper heel posture.

KING SIZE ERGONOMIC OBLIQUE STEEL TOE CAP

MAXIMUM RESISTANCE • MAXIMUM COMFORT

COMFORT 12 sole DOUBLE DENSITY PU RUBBER

- 1 **RUBBER OUTSOLE** heat resistance HRO up to 300° C. cold resistance up to -40°.
- 2 **SELF - CLEANING DESIGN** to keep assuring lightnes and flexibility.
- 3 **POLYURETHANE DIRECT INJECTION MIDSOLE** to provide the best walking softness and waterproof construction.
- 4 **BIOERGONOMIC LAST** to improve the best walking comfort also in the most demanding needs.

EXTRA LARGE WIDTH 12 MONDOPOINT:
king size Bio Oblique Steel Toe Cap Ergonomic Comfort.

COMFORT 12 OUTSOLE IS RECOMMENDED FOR DILUTE MINERAL ACIDS, ORGANIC SOLVENTS AND OILS/ LUBRIFICANTS.

SLIP RESISTANT STANDARDS • EN ISO 20344:2004 / A1:2007 SRC=SRA+SRB

	SRA Ceramic and detergent solution		SRB Steel and glycerol
