

Fig. 8 Code CE60

Used to provide a common point of connection for portable drain earths that will permit the safe and effective control of induced currents and voltages.

CE61 Deas Bar

Fig. 9 Code CE61

Used for connecting into the arcing horn landing hole to provide a temporary point of connection for partial bridging earths and drain earths when lowering off a string of insulators.

Socket OL1

Fig. 10 Code OL1

Socket for Operating Clamps with Long Taper Operating Screws

All sizes are in Millimetres
