

### Flexible Connectors

Custom made for form and fit to meet individual unique applications. Flexible connectors are made from either braid or strand and suitably terminated. When called for, flexible connectors are supplied insulated for protection and identification purposes. Where the continuous current rating is likely to exceed 400 amps then this is generally accommodated within our Flexible Busbar range of products.

Technical assistance is available to ensure Mettex supplies the optimum solution for your specific application.

### How to order

When ordering Connectors, please supply the following information:-

- OL – Overall length
- L – Length between hole centres
- D – Hole diameter
- M – Material and cross sectional area
- TT – Termination type
