## QUICK REFERENCE CHARTS & INFORMATION

### THE SALISBURY ADVANTAGE

#### CE MARKING

All Salisbury PRO-WEAR® Arc Flash Protection Clothing has received the coveted CE certification. This Salisbury advantage is one more reason why Salisbury provides the best personal protective equipment available today. All Salisbury PRO-HOOD® Arc Flash Protection Hoods have also been CE certified. Look for the CE marking to see exactly which garments have been CE 0120 certified.

#### ABOUT CE CERTIFICATION

CE Marking is a mandatory conformity marking and refers to Product Safety.

CE Marking on a product:

- Indicates that the product complies with the essential health and safety requirements of all applicable EU directives.
- A declaration by the manufacturer, or its representative, or the importer that those requirements have been met in full.
- A declaration that all conformity procedures have been completed. The product is allowed in the European market.

## WORK GLOVES

### THE NEXT-GENERATION OF PERFORMANCE WORK GLOVES.

These high quality performance Work Gloves are constructed of a synthetic and natural material blend. These gloves are highly durable and comfortably form-fit to the hand without inhibiting dexterity.

**EXTENSIVE REINFORCEMENT:** Salisbury by Honeywell Work Gloves have extensive palm and finger coverage. The PVC based Asphalt Reinforcement Material is tacky, making the gloves more dexterous, durable, and provides a secure grip even in wet conditions.

**CUFF:** Some of these gloves feature a FlexMesh™ cuff which is a protective, breathable, and comfortable cuff closing system that does not require constant adjusting.

**THUMB CUT:** The unique 3-D palm construction design prevents bunching between the thumb and index finger.

**STREAMLINED KNUCKLE PROTECTION:** The knuckle protection on the back of the hand is internalized and will NOT get “caught up” when reaching into a tool pouch or pocket.

**DURABLE SYNTHETIC LEATHER ON BASE OF PALM:** The base layer is synthetic suede called SupraTex™. This material is highly breathable and durable. The material wicks away heat and moisture which prevents sweat and heat from building up.

**WARNING:**  
THESE GLOVES ARE NOT INTENDED FOR ENERGIZED ELECTRICAL USE.

## THE ULTIMATE BACK PACK

### ► EVERYTHING YOU NEED IN ONE CONVENIENT LIGHTWEIGHT BACKPACK.

The **SALISBURY SKBACKPACK** is specifically designed to hold virtually everything from tools to full Personal Protective Equipment (PPE) kits. Specialized reinforced compartments with flap closures are located on both sides of the pack and include flexible slots designed specifically to keep your hand tools in place. The individual compartments make finding the right tool a snap. The backpack can even be personalized to hold your very own PPE kit - clothing, head and face protection, insulated tool kit, and much more. The interior includes extra large compartments to hold voltage detectors or other specialized tools, as well as numerous smaller partitions. There is even a specific area for first aid items.

The rugged SK BACKPACK is manufactured from water resistant reinforced fabric, which is resistant to cuts and abrasion. The adjustable heavy duty straps are wide and padded making it very comfortable to wear regardless of the load. The SK BACKPACK includes an exterior hard hat strap, D-ring's, and universal snap hook. Even a built-in integrated handle for those on the move.

Thank you to numerous lineman and electricians that provided feedback and guidance to Salisbury during the design process.
