Tie-on Cable Labels

Thermal

Information

Ideal for larger cables and cable bundles and for use with nylon or stainless steel cable ties, our thermal printable Legend® tie on cable labels are made from durable polyester.

Our Labacus Innovator labelling software includes the templates for all of our tie-on cable labels.

Also available as a laser option for standard laser printers.

Benefits

✓ Easy to use and apply

✓ Pre-perforated for rapid removal from roll

✓ Print using the Silver Fox DTP-1 thermal printer

✓ Fit cable diameters 10mm (0.394") – unlimited

Technical Data

Material:	175 micron (0.0070 caliper) polyester
Tested temperature range:	-40°C to 85°C (-40°F to 185°F)
RoHS:	RoHS Compliant
Printing:	Silver Fox DTP-1 thermal printer
Thermal Ribbon:	TSR1/300

Product Testing

● **MIL-STD-202G Method 106G**
Moisture Resistance

● **MIL-STD-202G Method 108A**
Elevated Temperature 85°C (185°F)

● **MIL-STD-810F Method 502.4**
Low Temperature -40°C (-40°F)

● **IEC60068-2-52**
Test kb Salt Mist (Cyclic)

● **H$_2$S Exposure**
(Sour Ageing)

Refer to Product Testing information sheet for more details

Order Code Example

Example order code: LM9013TY

L = Legend® label

M = Medium size label

9013 = Size of label (mm)

T = Thermal printer

Y = Yellow

Ordering Information

Order Code	Label dim (mm)	Label dim (inch)	labels/roll	Pack qty	Colour options
LM9013L*	90 x 13	3.546 x 0.512	1000	1 Roll	🟨

*Specify colour option when ordering: Y=Yellow
