

### Order details are as follows:

Ladder Type / Adjustable Coupler Type / Finish & Material.

SW6/SAC/GA Speedway SW6 Short Adjustable Coupler,  
Hot Dip Galvanized Finish.

Short & long adjustable couplers for SW4 & SW5 are identical –  
order as SW45/SAC/... or SW45/LAC/... for example:

SW45/LAC/SS Speedway SW45 Long Adjustable Coupler,  
Stainless Steel. ■

### Expansion Couplers (EXP)

Speedway expansion couplers (EXP) are recommended for those  
installations where the maximum and minimum temperatures  
are such that the expansion and contraction of the cable ladder  
installation is a consideration.

Each expansion coupler is designed to allow for a maximum  
movement of 28mm.

Speedway expansion couplers are supplied singly and come  
complete with all necessary ladder fixings (8 fixings supplied  
with each coupler).

Specific recommendations covering the spacing of expansion  
couplers and the setting gap at the time of installation are given  
in the 'Technical Data' section.

Expansion Coupler SW\$/EXP/#  
Supplied complete with all ladder fixings

### Full Moment Expansion Couplers (FME)

Speedway full moment expansion couplers (FME) are  
recommended for those installations where the maximum  
and minimum temperatures are such that the expansion and  
contraction of the cable ladder installation is a consideration  
and where it is not possible to provide support within 600mm of  
the expansion joint.

Capable of carrying the full load of the Speedway cable ladder  
at the expansion joint, each expansion coupler is designed to  
allow for a maximum movement of 75mm.

Speedway expansion couplers are supplied singly and come  
complete with all necessary ladder fixings (8 fixings supplied  
with each coupler).

Specific recommendations covering the spacing of expansion  
couplers and the setting gap at the time of installation are given  
in the 'Technical Data' section.

Full Moment Expansion Coupler SW\$/FME/#  
Supplied complete with all ladder fixings
