ASBESTOS REPLACEMENT CHANNEL

Designed as a direct replacement for existing asbestos channel, the BCM GRC replacement channel and lids are dimensionally identical to the originals. They can therefore be installed as individual units without expensive alterations, or replacement of the existing support posts and brackets.

PRODUCT CODES				
BCM Part No.	Rail Industry Cat. No	Product	Length	Depth
BCM C/04/19	4/090790	Channel	2 metre	7 1/2"
BCM C/04/21	4/090792	Lid for Channel	4 ft	

POINT COVERS

GRP Products

BCM's glass reinforced plastic (GRP) points covers are a direct replacement for the HW 2000 points covers. Easily installed they are frost proof and provide excellent protection during cold winter months. They can be supplied with your company name and logo if required. Also available are throw bar covers and throw bar detector blades.

PRODUCT CODES		
BCM Part No.	Rail Industry Cat. No	Product
BCM C/11/04	88/414	Points Cover
BCM C/11/05	88/416	Throw Bar Detector Blade
BCM C/11/06	88/415	Throw Bar Cover

UTX CHAMBERS

Circular and lightweight UTX chambers manufactured from GRC are both simple and easy to install. The ideal method of providing a junction or providing an under track crossing, all products come complete with a lockable GRC lid. Alternatively a galvanised steel lid with a 3.5 tonne rating is available.
