

Cable Stripper No. 4 - 28 H with hook knife

Technical Datasheet

Create Date: 25.06.2013 - Page 1/1

Introduction

WEICON has been developing and producing various types of cable stripper since 1967. These premium quality tools are TÜV-tested, carry the GS seal for verified safety, and were developed taking occupational safety and user-friendliness aspects into account. The WEICON range includes cable strippers, cable dismantling tools, wire strippers and various multi-function tools for professional users.

Description

WEICON cable strippers allow all common round cables to be stripped accurately, quickly and safely. The cable stripper product family includes various types which have different additional functions, thus meeting the individual needs of the users.

The Cable Stripper 4-28 H allows all common round cables of between 4 and 28 millimetres diameter to be stripped accurately, quickly and safely. The cable stripper has an ergonomically-shaped, non-slip handle. The cutting depth of the blade can be regulated infinitely with the help of an adjustable screw on the end of the handle. This prevents damage to the inner conductor. The blade is integrated self-rotating into the casing, allowing automatic conversion from circular to longitudinal cutting. In addition, the 4-28 H has a hooked blade which can be covered with a protective cap. This cap rests securely over the blade, significantly reducing the risk of injury.

Patent no. 100 01 002

Technical data

Cable type	Fine-wired and solid conductors with PVC insulation
Field of use	External diameter 4 - 28 mm
Inner blade	Adjustable & replaceable
Additional benefits	Hooked blade with protective cap
Approval/certificates	Safety tested by TÜV NORD
Material	Glass fibre reinforced polyamide
Length	185 mm
Weight	96 gr
Accessories	Replacement blade, item no. 5010001

Note

Working with WEICON Stripping tools is only permitted with potential free wires and conductions.
