WIBE Ladders

Finishes

HDG	= Hot Dip Galvanised
PG	= Pre-Galvanised
SS	= Stainless Steel
EG	= Electro Galvanised
ALU	= Aluminium
LDPE	= Plastic

Wibe Ladder is supplied by MITA and complements the other cable support systems that we offer.

All galvanised ladders are supplied in 6m lengths and pre-galvanised ladders in 4m or 6m lengths.

Wibe is one of Europe's largest cable ladder brands and offers the fastest installation system available.

Wibe Cable Ladders are based around a rapid fit system. The unique coupling method avoids the need for flat fishplates which require up to 32 nuts, bolts and washer sets per coupling. Instead of the usual 10-15 minutes time taken per ladder, the Wibe coupler comes with 2 captive bolts and a complete connection can be made in around 30 seconds.

Additionally, the WIBE pre-galvanised ladder offers impressive materials cost savings for any internal applications and is ideal for use in commercial buildings, hospitals, distribution centres, shopping and retail applications.

KHZSP Ladder

Ordering Information KHZSP Ladder is ordered and priced in either 4m or 6m lengths
